EXPERIENCE

Full Stack Intern

AediaX Tech Private Limited

Bhubaneswar, Odisha

May 2026 – Jun 2026

- Completed an intensive 1-month (120-hour) Full Stack Web Development training and on-site internship, building applications with the MERN stack and PostgreSQL/MongoDB
- Awarded as the **Top Performer** from 35 interns, along with the **Certificate of Innovation Excellence**, for outstanding performance, innovation, and problem-solving

PROJECTS

Nexus Agent | *Python, LangChain, LangGraph, LangSmith, Groq API*

2025

- Built a conversational AI chatbot with 3 progressive architectures — from a basic chatbot to a fully autonomous agent with tool-routing logic that decides when to search the web, run calculations, or call custom functions, improving response accuracy
- Implemented a human-in-the-loop mechanism allowing the AI to pause, request input, and resume — enabling supervised operation in sensitive workflows
- Built a multi-agent pipeline with specialized Researcher and Writer roles, with end-to-end monitoring via LangSmith
